CivicClerk has recently updated their systems which will show a new page when you visit our website for the agendas and minutes. When you select the agenda and minutes tab, it will now take you to a page that looks like the one below. With the new update, it can become very confusing to navigate...but have no fear, for your Administrative Services Coordinator is here! 😊

can be downloaded under "Most Recent Events". The dates available here are from April 2021 through present. Due to computer software changes, meetings prior to April 2021 are not listed. If you would like a copy of minutes from a meeting prior to these dates, please email Admin@vanburencountymi.gov.

Agendas for upcoming meetings are posted below by 5:00 PM on the Friday prior to the meeting date.

When you are first presented with the agendas and minutes page, the list of meetings will automatically always begin at the one that is upcoming. In this case, it is our April 26th CoW meeting and then the April 26th BOC, etc.

If you wish to view a previous agenda packet, or minutes from a previous meeting, you must have your mouse hovering over the upcoming meetings, and then simply scroll up while still having your mouse over the meetings. You will see the past meetings begin to appear. Another way to know you are in the previous meetings, is at the top of the columns, it will say "Past Events" or "Coming up".

Now that you have navigated to which meeting you would like to review, on the right side you will see an arrow with a line underneath. That is where you will find the options to download the agenda, agenda packet or the minutes. A list of options will drop down once you click the arrow. From there you can view and download the agendas/minutes.

Tada! You are finished. Should you have any trouble along the way with navigating the new page, please do not hesitate to contact me! 😊
